Mr. Bryan would rather be right than President. That kind of a man would make the right kind of a President.

The Russians have a dislike to tunnels on their railroads, from which it may be inferred that the Russian has no hankering to be put under ground.

The movement to organize the national negro party has fizzled out. There is an impression that some of Mark Hanna's agents "saw" some of the organizers.

A New Jersey man declares that he recently saw a snake with legs, and actually saw it climb a tree. The apple jack they decoct in Jersey has some peculiar qualities.

It is said that Li Hung Chang once refused the Emperorship of China. Li had too soft a snap to throw up for that job. The fellow behind the throne had a better job than the fellow on it.

The Mayor of St. Louis prohibited the boys from shooting firecrackers on the 4th. If he keeps on fooling with the boys the next thing he knows they will organize a riot and then where will the Mayor be?

If Wm. J. Bryan succeeds Mr. McKinley and he calls the attention of Congress to its "plain duty" you can bet your bottom dollar that he will not swallow it all, and steer in directly the opposite course. He isn't built that way.

There is an iron mountain in Durango, Mexico, which an American engineer, says could supply all the smelters in England with ore for 330 years. He says 1,000,000,000 tons could be mined without removing an inch of surface soil.

Out in some portions of the mountain section of this State hundreds of men are employed in stripping the bark from trees for tanning purposes. As this kills the tree it looks very much like killing a steer for his hide.

The Republican papers are talking about the graceful act of President McKinley in accepting a cigar from a colored street sweeper. But they do not say whether he smoked it or not. Perhaps he took it from force of habit. The average Republican takes everything that comes his way.

Gen. Rosser, of Virginia, didn't make a record-breaking jump when he landed in the Republican camp. He has been gravitating the way for several years, ever since he ran as an independent candidate for Congress and got left. The trouble with him was that the Democracy of his bailwick didn't take him at his own appraisement.

**The "Compton" in Service.**

A new era in lower Cape Fear coast shipping was marked by the clearance yesterday with her first cargo of the handsome steamer *Compton*, which was recently purchased and thoroughly overhauled by the Wilmington and Little River Transportation Company, of which Messrs. Stone, Rourk & Co., of this city, are agents. The *Compton*, of course, is in charge of the clever Capt. W. A. Sanders, and she carried a big freight on her initial trip of what promises to be a long and successful career. The STAR feels assured that the people of the lower Cape Fear coast will greatly appreciate the extra accommodations offered in the operation of the new steamer.

**The Banner County.**

"Why stand we here idle?" It is almost a certainty that if the white men of this county register and poll their full strength for the Constitutional Amendment New Hanover will be the "banner" White Man's county of the State. We can easily roll up the biggest majority of any county in North Carolina if our people will all register and vote. Is not this worth striving for? New Hanover led the revolution of 1898. Shall we prove laggards now? It was bullets in '98. It is ballots now.

Go to work. Prove yourselves men. See that every white man registers and then see, on the day of election, that every white man votes.

**Motorman Injured.**

Albert Arnold, of Southport, who was learning to become a motorman on one of the electric cars, was dangerously wounded Sunday night at Ninth and Princess streets by being struck in the abdomen with the knob of the brake, which was released too suddenly by himself. He is at the hospital, and was not expected to live at 1 o'clock this morning.

## THE TOURNAMENT.

### Many Firemen and Their Friends Were Welcomed to Wilmington Yesterday.

### THE STATE ASSOCIATION

**Will Be Called to Order by President McNeil This Morning—Those Who Arrived Yesterday--Public Comfort Committee's Appeal.**

The evening before the opening of Wilmington's big State and Inter-State Firemen's Tournament and Twelfth Annual Convention of the North Carolina State Firemen's Association found upwards of 750 firemen, their friends and delegates present to participate in the exercises, and from present indications thrice that many more will arrive on the several trains today, to say nothing of the crowds that will continue to swell the throng during the remaining days of the week.

Capt. James D. McNeill, President of the Association, arrived from Fayetteville last evening and expresses himself as well pleased with the prospects for a successful event. Mr. T. A. Green, of Newbern, treasurer of the Association, arrived during the day and Mr. W. P. Monroe, Statistician, is of course already here. Capt. H. L. Riggins, first Vice President, is detained in the campaign at Winston, his home, and wires regrets that he cannot be here. Mr. Robert Douglas, Second Vice President, is also detained by the campaign and Secretary J. M. Griffith, of Greensboro, telegraphed yesterday that he would be unable to be here.

However, the association will be called to order in Castle Hall this morning at 11 o'clock by President McNeill. A large number of delegates are here and the sessions promise to be lively, and will continue through the day and a part of the night with recesses at convenient hours. To night the election of officers will take place and Capt. McNeill says it is probable a recess will be taken until Thursday or Friday night, when an adjourned meeting will be held.

The sessions will be opened with prayer this morning by Rev. A. D. McClure, pastor of St. Andrew's Presbyterian Church, and then will follow the address by Hon. A. M. Waddell, Mayor of the city, which will be responded to by D. L. Ward, Esq., of Newbern, Col. W. S. Cook, Mayor of Fayetteville, and Insurance Commissioner J. R. Young, of Raleigh. Headquarters for the visiting firemen has been established in the store formerly occupied by Owen F. Love & Co. opposite The Orton, and secretaries of visiting companies are requested to register their men there and they will then be taken "in tow" by the Public Comfort Committee, consisting of Messrs. J. C. Morrison (chairman), Martin Newman, J. M. Wright, H. D. Oldenbuttel. H. H. Gieschen and R. C. Platt, and assigned to homes in the city. In this connection it is well to state that the committee is agreeably disappointed in the large number of firemen who are coming and find that they must call upon boarding houses, etc., to provide homes for them in addition to those who have already responded to appeals of the committee. It is earnestly desired by Chairman Morrison that all who can will furnish him at headquarters with location of residence and number of men they can accommodate.

## WILL CONVENE THIS MORNING

**First Biennial Conference of Southern Advent Christian Association in Session. Many Delegates Have Arrived.**

The firstBi-ennial Conference of the Southern Advent Christian Association will convene this morning at 10 o'clock in the Second Advent Church on Sixth street between Church and Castle. Every train arriving in the city yesterday brought delegates and before this evening, it is expected that a majority of them will have arrived.

The Secretary, Mr. Geo. H. James, has issued invitations to the ministers of the various churches in the city and to their congregations and a warm welcome awaits all who may desire to attend.

The officers of the Association are:

The seven-months-old son of Dr. and Mrs. J. W. Petty, of Winston, died yesterday morning of cholera infantum at the Ocean View Hotel, Wrightsville Beach. Dr. Petty and family went to the beach only a few days ago to spend some time. The bereaved parents have the sympathy of many. The remains, accompanied by Dr. and Mrs. Petty, were taken to Winston last night for interment.

**White Men to the Front.**

It will be a burning shame if the white men of New Hanover county fail to register and poll their full strength in the election to be held on the 2nd of August. Do you want to vote for the Constitutional Amendment? Do you want to vote for Aycock for Governor? If so, your name must be placed on the *New* registration books.

## SENTENCED FOR MAYHEM.

**Case Against Josephine Pigford Disposed of Yesterday in the Criminal Court. Other Proceedings During Day.**

The most important case tried at yesterday's session of the Criminal Court was that of Josephine Pigford, a disreputable colored woman, charged with biting off the finger of her sister, Melissa Pigford, the crime constituting mayhem. Judge Moore stated that there was also an action against her before the court for nuisance and that as an example to evil characters of her class he would make the sentence three years in the penitentiary and it was so ordered. The judgment is highly commendable.

The case of "Peace," the religious fanatic, will probably be taken up the first thing this morning.

John Hennegan, the negro youth charged with burglarizing the house of Wm. Robinson, the colored shoe maker residing in the Fifth ward, was called and as the charge is a capital offence Judge Moore appointed William J. Bellamy, Esq., and A. J. Marshall, Esq., to defend him at the hearing which will probably be to morrow. It is learned that the defence will set up the plea that the object of Hennegan's visit to the house was other than burglary.

The following cases were disposed of yesterday:

Lilly Hicks and Eliza Ann Merritt, house breaking, defendant sentenced to two years in the State penitentiary; not guilty as to Merritt.

Wm. Griffin, larceny; twelve months on public roads.

C. P. Lockey, larceny, called and failed; judgment nisi; sci. fa. and capias.

Wm. Howe, misdemeanor, continued.

Willie Robinson, carrying concealed weapons, guilty, judgment reserved.

J. C. Hurst, A. and B. D. W.; not guilty.

Thos. Williams, resisting officer; 12 months on road.

Sperbey Cumber, concealed weapons and A. and B. D. W.; nol pros with leave.

May Parker, Bella Wagner, A. and B. D. W.; not guilty as to Wagner; Parker sentenced to six months on roads.

George Washington, larceny; eight months on the roads.

George Bell, assault and battery with deadly weapon; judgment reserved.

Josephine Pigford, mayhem; three months in penitentiary.

The following talesmen are ordered summoned for duty to day: S. F. Yopp, C. W. Polvogt, M. O. Cowan, Isaac Bear, N. M. Hunt, J. C. McCartney, R. W. Woodward, H. E. Bonitz, C. E. Dixon, Isaac N. James, J. H. Brunjes, Wm. Sinclair, John G. Wagner, B. R. King, E. F. Johnson, William A. Spencer, George Grotgen, G. E. Leftwitch, James J. Hopkins, H. F. Canady, Neill McEachern, E. S. Brock, Jno. T. Scott, Jesse J. Craig, Henry Tiegen, Wm. Tienken, L. Bluethenthal, W. O. Willoughby, Willie Baldwin.

## THE COUNTY COMMISSIONERS

**Held Special Meeting Yesterday—Many Applications for Exemption and Reduction Were Not Granted.**

A special meeting of the Board of County Commissioners at which all members were present was held yesterday afternoon beginning at 2:30 o'clock, but only matters of minor importance were transacted.

Application from Mr. James Madden for a refunding of tax on property sold was granted, in lieu of which he is to list $11,500 as cash on hand or solvent credits.

Application for a continuance of the exemption from taxation of the Howard Relief Fire Engine Company's property on the ground that the organization is a charitable and benevolent institution, was not granted.

A reduction of taxation on the property of the heirs of Mrs. E. W. Taylor, on Second between Market and Dock, was likewise disallowed. The application for reduction was through Mr. C. Ed. Taylor, of Southport, who contends that the valuation is excessive.

An application for exemption from taxes of two acres of land on Middle Sound, the property of the United Sons and Daughters of Salem, was likewise refused.

Col. Walker Taylor has been named on the Board of Tax Assessors, vice Mr. W. M. Cumming resigned.

## BOAT CLUB ORGANIZED.

**Members of Y. M. C. A. Very Enthusiastic. Arrangements Being Perfected.**

A boat club is the latest acquisition to the Y. M. C. A. The progress is under full headway and has already assumed definite shape. At the last meeting of the Board of Directors the following committee was appointed to look into the advisability of organizing a boat club: Dr. W. C. Galloway, Messrs. R. E. Van Lear, P. R. Taylor, F. M. Fulford and Dr. N. M. Wetsell. The committee met and decided to make a complete canvass of the situation, and after the investigation, reported favorably to the Board.

The following were appointed on a committee to solicit funds and enlist members: Messrs. P. R. Taylor, (chairman), R. E. Van Laer, N. M. Wetsell, F. M. Fulford, Erich Norden and H. E. Boney.

The club hopes to start with three sail and two row boats. Mr. W. H. Sprunt has offered the club docking space at the Champion Compress. The prime object of the club will be a thorough promotion of the sport of rowing and sailing.

— Mr. Elbert Farrior, of Charlotte, is spending the week at Wrightsville Beach.

## CHARLES HEATH DEAD.

**Prominent Citizen of Newark, N. J, Died at Wrightsville Beach Sunday.**

Mr. Charles Heath, a prominent and wealthy citizen of Newark, N. J., died Sunday evening at 7 o'clock at Northrop's cottage on Wrightsville Beach, aged 40 years. Aneurism of the heart was the cause of death. He had been in ill health for some time, and his demise was not altogether unexpected.

Mr. Heath came South to Goldsboro a year ago for his health. Thinking that the salt air would improve his condition, he came to the beach in the early part of June.

The deceased is survived by two daughters, Misses Margerie and Carlotta, and a son, Mr. Edwin Heath, who were with him at the time of his death. Dr. H. D. Johnson, of New York, his physician, and two trained nurses were also present.

Mr. E. F. Heath, his father, of Newark, was wired for and arrived last night. The remains, accompanied by the members of the family who are here, will be taken to Newark, leaving this morning at 9.30 o'clock over the A. C. L.

**An Incident in Duplin.**

The good people of Duplin are aroused to the necessities of carrying the Constitutional Amendment and daily incidents of Rep pop fusion are convincing them beyond a doubt that the days of disgraceful mis-rule in eastern counties is by no means at an end. The following signed letter was received by the STAR yesterday for publication.

WARSAW, N. C., July 9.—Who says there is no negro rule in Eastern North Carolina? On Monday, July 9th, 1900, J. B. Winders, a white fusion magistrate and revenue "doodle," of Warsaw township, Duplin county, issued a warrant for Lewis Williams and Alfred Herring, both of them negroes and said to be preachers, for an affray or fight, and deputized Larry Spearman, a coal-black negro, to serve the papers, when there were two deputy sheriffs in town at the time and both of them residents of the town, thereby showing his contempt for the white man. Comment is unnecessary.

JNO. W. SWINSON, Town Marshal.
M. E. HOBBS, Liveryman.

P. S.—This negro, Larry Spearman, couldn't tell his name before the registrar.

**Saw Mill Burned.**

Mr. T. C. McNeely, General Superintendent of the Carolinia Northern Railroad, from Lumberton to Proctorville, who was in the city yesterday, told of the burning at Kingsdale of the Southern Saw Mill and Lumber Company's plant six miles below Lumberton. The fire was discovered in the engine room and the entire mill was destroyed, with planing machinery, commissary and about one million feet of lumber, entailing a loss of about $50,000, which is partially insured. Of the amount carried $20,000 was with Messrs. Walker Taylor & Metts, of this city.

**Excursion To-night.**

Visitors to the city, as well as residents, will find no more pleasant recreation this evening than "taking in" the first of the Second Regiment Band's popular moonlight excursion to Carolina Beach on the steamer *Wilmington*. The trip down the river with Captain Harper is well worth the price, to say nothing of the concert by the band and the attraction at the beach. The boat leaves foot of Market street at 8 o'clock sharp, and tickets may be purchased on the wharf.

### FRAUDULENT CLAIMS.

The Republican platform adopted at Philadelphia congratulates the country upon its unparalleled prosperity, and claims that it is the result of Republican policies and of the splendid management of affairs by the Republican administration. This is simply an illustration of Republican cheek, which brazenly claims everything good for that party and attributes everything bad to some other party.

Every one who keeps even moderately informed on current events knows that the improvement in the conditions that had prevailed was not the result of Republican policies, but of the short grain crops in Europe, which created an extraordinary demand for American wheat and corn, which ran the prices up and enabled the Western famers to pay some of the debts that had been hanging over them. With the millions of dollars that the farmers received they paid debts, and bought things that they needed, and this put the money in circulation, and others as well as the farmers were benefitted by it. With the ability of the farmers to buy more, manufacturing industries were stimulated and this gave employment to thousands of idle people. As these became wage earners the market for goods became better and the stimulus to manufactories increased. This will in part account for the revival in the manufacturing industries, with which the McKinley administration had no more connection than it has with the spots on the sun.

In this connection it should be remembered that this industrial revival was not confined to this country, for there was an industrial revival throughout Europe, as great in Germany and in Great Britain as it was in this country. Both of those countries and others across the sea had suffered from depression as this country had; the farmers in England had suffered so that many of them were unable to pay their rent and thousands of acres of farming lands went fallow for want of tenants to cultivate. This condition had existed for some years, until the revival.

What brought it to them it would not be easy to tell. Perhaps it was only following the law that after periods of depression come periods of activity, which in time are followed by periods of depression, but we do know that an era of railroad building in this and in other countries set in which, with the other demands for iron, created a demand that the furnaces of the world, although increased by many, were scarcely able to supply. This stimulated mining, and iron and steel making in this country, giving employment to many thousands of people, who turned out and made more iron and steel than this country ever made before. With the shipping of grain to the seaboard, the transportation of iron to the furnaces and to the markets, and the carrying of goods from the manufacturing centers, and ports of entry to the different sections of the country the railroads were given plenty of work, thousands of idle men found employment on these; some of the impaired roads had to be put in better condition, new rails laid, thousands of cars had to be built to meet the requirements of business, new roads had to be built, all of which gave employment to thousands of men, and thus more money went into circulation and the multitude of those employed became better able to buy, and better customers of the market, and the manufacturer. As the railroads became profit makers their value increased, they got out of the hands of receivers, and their stock went up.

Encouraged by the world demand for iron our manufacturers began to compete with the manufacturers of Europe, not only for locomotives, steel rails and structural iron, but for other things, and soon found a market abroad for many articles on which they underbid the European manufacturer, and our exports of manufactures increased immensely, amounting within the past year to more than a fourth of our total exports. And the McKinley administration, the Republican party, or its policies had no more to do with this than they had with the spots on the sun.

If there had been no short crops of grain in the grain-producing countries of Europe we would have had fifty cent instead of dollar a bushel wheat, and the Western wheat grower and food producer would still be sitting on the ragged edge ruminating on the question whether "life is worth living." His mortgages would not be paid, and the merchants wouldn't be laying in big stocks to meet the Fall trade. The railroads would not be employing increased force nor be building more freight cars to meet the demand for transportation. If there had been no revival of industries in European countries, no extraordinary activity in railroad building in other countries, there would have been no extraordinary demand for iron or for other manufactures, and fewer mines would have been opened and fewer furnaces put in blast. The situation all around would be about as it had been or worse. It was the world's demand and not the McKinley administration that gave us ten cent cotton. The revival of the industries in this country was concurrent with the revival abroad, and the Republican party had no more to do with it than it had with the big wheat crop in Kansas this year. The assertion that it had is characteristic of the brazen assumption and monumental cheek of the Republican platform builders.

### A PRESIDENT FOR AMERICA NOT FOR ENGLAND.

After his return from England Richard Croker was interviewed by a reporter for one of the New York papers, who among other things quotes him as follows:

"Over in England they are watching the fight here this fall with as much breathless suspense as they do the Chinese situation. They are all for McKinley and the Republicans. One of the world's greatest bankers called on me just before I sailed.

"'What are your best advices as to American politics!' asked the banker. 'Who will win the Presidency this autumn!'

"'Bryan,' I said.

"'If he does,' replied the banker, 'we're ruined over here.'

"'I don't want to contradict a man of your experience,' I said, 'but I think your idea of ruin to any man to follow in the wake of Bryan's election is all nonsense. But if were, what then? Bryan, to my mind, is one of the best and most typical Americans since the day of Lincoln. And we elect a President for ourselves, not for England. Bryan will succeed, and folk in England will have to take their chance of that. We may be willing to extend you our hand in peace and amity, but we are not ready give you our Presidents.'

"My own view is that British opposition to Bryan should be a good American reason for electing him."

How the election of Bryan would ruin England we fail to see, and so did Mr. Croker, but as he was talking with a banker who expressed this fear, the probabilities are that the banker was thinking about the influence that the election of Bryan would have in adopting an American instead of an English financial system, which would take it out of the power of the English bankers, in combination with the American bankers, to control our finances. This might not be a good thing for the English bankers, but it wouldn't ruin them.

But this banker aside, there is no question that between Bryan and McKinley, the sentiment in England is for McKinley for he has been pulling right along with England ever since his inauguration, to such an extent that it has been charged that there is a tacit alliance between this Government and the English Government, as a result of which the McKinley administration has silently acquiesced in if it did not openly endorse acts by the English Government that would have met with stern disapproval if not with emphatic protest a few years ago. This thing has been carried to such an extent that some of the English papers have been dictating what this Government must do in certain contingencies, how it must make common cause with Great Britain, as if it were a British province instead of an independent Republic. They know that if Bryan be elected President, while England will be treated respectfully as all other nations will be, there will be no more entangling foreign alliances, no pandering to British sentiment, at the expense of American prestige, and no cringing to British money lords. We will have a government for Americans by Americans.

### BEARING ITS FRUIT

In another column we publish the report of the speech made by Marion Butler at Statesville on the 4th inst., a villainous speech, but characteristic of the vile, sneaking, treacherous plotter who delivered it, and would not have spoken as he did if any of the gentlemen arraigned as murderers and assassins had been present. We venture the assertion that if Butler were confronted by the report of this rabid speech he would deny it, and say that he had been misquoted and misrepresented. That is his style.

But Butler is not the only one. Blackburn, Seawell, Adams, Pritchard, Holton and a number of lesser lights are uttering villainous and incendiary speeches to the people, mostly negroes, who go to hear them. We have heretofore quoted from these speeches, showing the style of talk they indulge in, and how they are misleading their ignorant dupes and influencing them to devilment. The effect of these incendiary speeches is shown in the two following dispatches to the Raleigh *News and Observer*, one from Greensboro and the other from Greenville:

"GREENSBORO, N. C., July 7.—A negro named Eli Wharton, made a boast in the presence of reputable white men at Whitsett, N. C., that if the Amendment was carried, every house in Whitsett would be burned and that white men would be called out and shot and that women and children would be put to death. This conversation was overheard by Messrs. J. D. Oldham, George Davenport, T. G. Boone and O. M. Ingold, all responsible and trustworthy gentlemen."

"GREENVILLE, N. C., July 7.—This morning Chairman Blow was assaulted by two negroes and his face badly beaten with metal knucks. The assault occurred in the public square fronting the court house. The police captured one negro. The deputy sheriff chased the other home and shot at him while running.

"Reaching his house, the negro's brother drew a gun and forbade the officer entering. Citizens with rifles and guns followed and surrounded the house, which was searched, but the negro had gone through a back door and escaped.

"The negro who stopped the officer and the one arrested by the police were tried before the mayor and sent to jail in default of bond. There is much indignation among the citizens threats among the negroes. Other trouble may follow."

The torch is the favorite instrument of the negro nursing malice or seeking revenge. Under cover of darkness he thinks he can apply it and burn barns and houses with impunity, and he is instigated to this, indirectly or directly, by the speeches of white men to whom he looks as leaders, and who claim to be respectable.

The assault on Chairman Blow in Greenville is the second assault on white men in Pitt county within a short while, the first being the assault on a tax lister a couple weeks ago for refusing to list a negro under age. These negroes who threaten to burn houses and to murder women and children, and those negroes who assault white men, are simply acting in accordance with the advice of the incendiary marplots who play on their ignorance and their credulity for the purpose of solidifying and enthusing them for the Republican ticket and against the amendment.

From a political standpoint this is good for the Democratic party, for the more incendiary the speeches of this gang are the more they will unite the white men, and the more determined they will be to poll their full strength and overwhelm these trouble instigators. But how long the white men of the State will patiently submit to this insolence, these threats and these assaults is another matter. These incendiary harangues are instigating a conflagration in which they may be caught, unless better counsels prevail and they quit playing with fire.

**Prevented a Tragedy.**

Timely information given Mrs. George Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of Pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c. and and $1.00. Every bottle guaranteed. Trial bottles 10c at R. R. ## BUTLER THE BEAST.

**His Infamous Attack on the White People of Wilmington—A Tissue of Lies from Beginning to End.**

[*Charlotte Observer Special.*]

STATESVILLE, July 7.—Senator Butler is doing dirty campaign work. His speeches are mean, vicious and incendiary. He vilifies, maligns and falsifies at will. I have reported his speeches in former years and know something of his malicious disposition. He plays on the credulity of his audience. I have heard him falsify to the detriment of others and for the time being bolster his position. But the people who once obeyed his orders have found him out. He no longer affiliates with respectable Populists, but has gone soul and body into the Republican party. All the worse for the G. O. P. Butler is a bad egg. The people of the State are talking of him like they do of rabid dogs. He sneaks into a quiet, peaceful community and tries to inflame the negroes. Hear what he said at Statesville on the 4th of July to a court house well filled with white Republicans from five or six counties and a lot of ignorant negroes. He calls Col. Waddell a coward; Bellamy an assassin and Aycock a would-be cowardly assassin:

"Butler said that Waddell was colonel of a regiment at the outbreak of the civil war and strutted around in his brass buttons and with his sword, but when the time came to go to the front, he deserted his regiment and got in a bomb-proof, while his lieutenant-colonel led the regiment on many a bloody field. Some one had told Waddell that he could get out of fighting by studying preaching and so he took up the study of preaching. He got a job as a clerk or commissary or something at Wilmington, and never smelled gun powder. Waddell is now going over the State and saying that he is ready to take his gun and make the white men who vote with the negroes live with the negroes. He was the man who was in trouble at Wilmington. But he didn't shoulder his gun there. He was too big a coward to do any shooting himself, but got others to shoot innocent negroes in the back.

"Charlie Aycock, the Democratic candidate for Governor, was one of the men who shouldered his gun to help shoot innocent men in the back.

"Butler denounces the people who had put down the negro riots as cowards and murderers, and said they had shot innocent men in the back.

"He said he lived in the east, and he had a message to deliver from the east. The negroes in the gallery cried out, 'Deliver it! Deliver it!' 'The Democrats are going to steal wherever they can in this election. But you work day and night. They can't possibly steal half of what our majority will be. If you will take care of the west, I will take care of the east. He denounced the Democrats as ballot-box thieves, who are trying to steal the negro's birthright.

"He said they ought to be in the penitentiary along with the chicken thieves. If the chicken thief goes to hell to be burned with fire and brimstone, these ballot-box thieves will go to a deeper and hotter hell.

"Down in his country, in 1894, the Democrats hunted up every blind negro and made him one of the judges of election, and when a Republican or Populist handed his ballot in at the window, the judges threw the ticket down and put in a Democratic ticket. They did his ballot this way, and winked at each other and said, 'Didn't we disfranchise Butler right?' But some men had bored an augur hole and saw them doing this, and those judges, in fear and trembling, got down on their knees on the floor and picked up those Republican and Populist ballots and put them back in the box, and it was good for their cowardly hides and tallow that they did.

[Signed.] "W. W. TURER,
"J. B. ARMFIELD,
"J. A. BUTLER,
"G. G. FRENCH."

"I, J. A. Hartness, clerk of the Superior Court, do certify that the above named gentlemen signed the above statement before me and certified that they heard Senator Butler's speech and that the foregoing statement is true and correct.

[Signed] "J. A. HARTNESS,
"Clerk Superior Court."

Heretofore when he has campaigned the State he has been received and cared for by Populists, but now he is in the hands of the Republicans. He is entertained in Republican homes and his crowds are composed largely of Republicans. There is no doubt as to where he stands.

The people of Caldwell county are cursing him. He made a very bitter speech there some days ago. It was like the one at Statesville. How long will Butler be allowed to make his maglignant speeches? The people of North Carolina have been patient with him. No other man has dared do what he has done.

H. E. C. BRYANT.

**Story of a Slave.**

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50c. Sold by R. R. BELLAMY, druggist. †

## SPIRITS TURPENTINE.

— Greenville *Reflector*: Mr. John Elks, an old Confederate soldier, died at his home near Winterville about noon Thursday. He fought through the civil war and received a wound at the battle of Antietam from which he never entirely recovered.

— Salisbury *Truth-Index*: Mr. Julius Peeler showed us to-day some of the finest wheat we have ever seen in this county. From one grain he has 57 stalks, with an average of 57 grains to the head, giving a yield of over 3,000 grains for the one grain sowed. The stalks are 4½ feet high, and, so far as we are informed, takes the palm in the wheat contest this year.

— Lumberton *Robesonian*: Alex. McLean, colored, blacksmith for A. L. & W. F. Bullock, at Alfordsville, was shot and killed Wednesday by Haywood Bowen, colored. The two men were brothers-in law, McLean having married Bowen's sister. Mean whiskey is said to be responsible for the killing. McLean was intoxicated and was advancing on Bowen, who shot in self-defence.

— Raleigh *Post*: A shooting affair took place at South Rocky Mount a day or so ago that may result seriously. Some time ago a negro named Williams, an employe at South Rocky Mount, became involved in a difficulty with another colored employe there. Williams struck his adversary on the head with a large piece of iron, and immediately ran away to avoid the consequences of his act. Returning this week, he was seen by his former victim, who immediately drew his pistol and fired at him, the ball entering his side and causing a very dangerous wound. The assailant ran away.

— Raleigh *News and Observer*: Rev. Marion R. Pernell, one of Franklin county's most highly respected citizens, dropped dead as he was hitching his horse to go out to one of his churches Saturday morning. Mr. Pernell had been in the ministry for thirty-five years. He was in his eightieth year and had probably established more Baptist churches than any Baptist minister in the State. He leaves a devoted wife and three sons.

—— Mary Hilton, colored, was killed Friday night by Cy Spiers, colored, some eight miles from Charlotte. The woman was in the company of a man when met by Spiers and the deed is believed to have been due to jealousy.

—— At Charlotte, Chas. Knox, while drunk, was attacked by another negro Friday. His skull was fractured, one of his fingers bitten off, and he also received other injuries.

## TWINKLINGS.

— Friend—"The doctors don't seem to be able to do anything for you?" Dyspeptic (gloomily)—"No; I guess I need a constitutional amendment."—*Puck.*

— She—"Papa is much opposed to our marriage." He—(haughtily)—"You don't suppose he has any doubt that that I cannot take care of you?" "Oh, no. He says there is no doubt about it."—*Life.*

— Stranger (thinking to point a moral)—"Do you know whose house that is, little girl?" Little Girl—"Yes, it belongs to the Lord, but I don't think he's in now, and his agent wen to Europe last week."

"— What made Prof. Pounder ring the bell and dash off the car in such haste?" "Oh, he told me that he couldn't stand to see those three women chewing and not keeping time."—*Baltimore American.*

— Jack—"Well, whatever the summer girl may be, there is one thing she is not." Will—"What's that?" Jack—"She is not contagious." Will—"How do you mean?" Jack—"You can't catch her."—*Detroit Free Press.*

— Baby Fish—"Oh, ma, there is a dude above, and I am afraid he will try to catch us for his supper." The Mother Fish—"Fear not, my children. There is no reason why he should eat us; we are brain food."

— Doctor (who is somewhat deaf)—"Did your wife take all the medicine I left?" Smith—"Yes; and she's dead." Doctor—"She's in bed, eh? Then I'll make a change in the treatment." Smith (louder)—"I said she was dead." Doctor—"Oh, she's dead, eh? Then I'll make out my bill."

— Incorrigible: Mrs. Lushford—"I see you are late again. Don't you remember what I told you the last time you stayed out so late?" Mr. Lushford—"No, m' dear. Zass ze reason I stayed out zish time—to see if you'd say it over again!"—*Indianapolis Press.*

— Police Powers: The speaker waxed impassioned. "Are you," he cried, feelingly, "of those who, having eyes, see not; having ears, hear not?" "Yes! yes!" shouted the assembled electors, as with one voice. For all of these men, as it chanced, were candidates for places on the police force."—*Detroit Journal.*

— A gentleman while walking along a road not far from the side of which ran a railway, encounted a number of insane people out for exercise. With a nod toward the railway lines he said to one of the lunatics: "Where does this railway go to?" The lunatic looked at him scornfully for a moment, and then replied: "It doesn't go anywhere. We keep it here to run trains on."—*Tit-Bits.*

## CURRENT COMMENT.

—— Governor Thomas, of Colorado, is a Georgian by birth. This accounts for his election as temporary chairman of the Democratic national convention. It is also one of the main reasons of his assured election to the United States senate to succeed Wolcott.—*Atlanta Journal, Dem.*

—— Speaking of army heroes reminds a contemporary of Teddy Roosevelt's talking himself into a vice-presidential nomination because of his Santiago record. This illusttrates how very partial public sentiment is, and how the fickle multitude is swayed by "they say," rather han by what "they do." Not one man in one hundred can recall the name of the colonel of the negro regulars who actually stormed and captured San Juan hill, and yet Roosevelt, who neither stormed nor capturefl it, gets honors and glory galore.—*Chattanooga Times, Dem.*

— God never crushes a humbled soul. He lifts it up, and rouses hope in the most discouraged hearts. The world which has such need of pardon does not know how to forgive. God alone is holy enough to forgive always.—De Ravignan.

— I have, by long and sound experience, found that the due observance of the Sabbath day and of the duties of it have been of singular comfort and advantage to me. The observance of the day hath ever had joined to it a blessing upon the rest of my time, and the week that hath so begun hath been blessed and prosperous to me.—*Sir Matthew Hale.*

### COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, July 9.—With cable accounts of bullish support the cotton market here easily developed considerable firmness without showing much activity. Indeed, the bulk of the trading was for the purpose of evening up all accounts rather than starting new ones. Public speculation was of a hesitating character throughout the session. The market opened steady at unchanged prices to an advance of eight points. Subsequently this increased the advance to three and thirteen points, with the improvement chiefly on the old crop positions which were in demand from the shorts. Upon any exhibition of weakness the new crop months were prompt to sell off, advices from the cotton belt being of about the average. The local trade as a class was disposed to cover, in recognition of the bullish possibilities of to-morrow's government report as a factor upon the English trade while not forgetting that the report will deal with conditions prior to July, with private and public accounts since then generally bearish. The volume of to-day's business was on mid summer proportions. From the strongest interval of the sessions it gave way three to eleven points, under realizing; but there was no display of bear confidence at any time. The market closed barely steady, two to twenty-one points higher on near months and three to six points lower on far months.

And a comfortable shave, is one of those things that the average man enjoys; and the place to find this enjoyment is the Barber Shop No. 7 South Front street. "Brush the gentleman from head to foot."

# PARTS OF THE BODY.

MODELS THAT ARE USED IN THE STUDY OF ANATOMY.

**They Are Taken From Subjects In the Morgues and Hospitals of Paris and Are Colored Exactly to Represent Nature.**

In the window of an oculist up town is a display which is grewsomely fascinating. It is composed of papier mache representations of parts and organs of the human body, colored similar to nature. Some are life size, such as a pair of lungs and a stomach, but others, an eye and an ear for instance, are large enough to have belonged to the giant who was knocked out by Jack. A weird model of a head demonstrates unpleasantly how you would look if your skin were peeled off your face. Every vein and nerve and muscle is carefully outlined and colored. A figure displaying the entire interior of a torso, colored to represent nature, shows us that all sorts of tints go to make us up inside. One is apt to think of oneself as being of one harmonious red interiorly, but this is all wrong, it appears.

Studying these figures sets one wondering where they come from and who models them. It would be an occupation congenial to few, one would suppose. A gentleman who came to the door for a moment courteously answered a lot of questions asked by an inquisitive person.

"These models," said he, "are all made in Germany and France. There are none made in this country. Yes, the manufacturer's assistants make their originals in clay, working directly from subjects obtained in hospitals and morgues. Azou of Paris is the largest manufacturer of this line of goods. They make models of sections of animals also. For instance, we now have an order for a deer. Come inside and let me show you more of the things." A glass case in the rear of the store was filled with all sorts of parts of all sorts of animals, human and otherwise.

"Isn't this a beautiful heart?" said he enthusiastically, exhibiting a life size organ of papier mache, divided up into little hinged parts and colored red and tan and pink and blue.

"It sells for $9. A little throat, similarly colored and divided, would cost you $8 if your fancy ran to that kind of bric-a-brac. A beautiful little bit of mechanism composed of papier mache, bone and wire, illustrating the nerves connecting the tongue with the ear, and various intricate auricular arrangements you can buy for $35."

There was a shelf full of brains and another full of animals' legs and stomachs and livers and things. Altogether it was a pretty bloody looking kind of show on account of the quantities of red paint used to illustrate large sections of muscle. Then standing up in one corner was a life size figure of a man composed of innumerable separate pieces, so that any part could be taken off and individually studied. One side demonstrated the muscle formation and the other the veins and nerves and arteries. This figure can be bought for $500 by any one who wishes such an ornament.

Then there were genuine skulls and skeletons. The French excel us also in the preparation of human bones for the market. An articulated skull of American workmanship would cost $9. A skull of French articulation was priced at $25, and the work was admirable. All the most delicate little bones were carefully preserved and arranged, and it was subdivided into many small parts, held together with tiny brass hinges. The top of the skull was sawed evenly off, so as to form a sort of cap, but the other openings seemed irregular and dovetailed. This was explained thus:

"Do you know how they separate a skull into its various parts? Well, they pack it full of sawdust, which they then wet. The sawdust expands and bursts the skull apart along its natural joinings or sutures. These are then hinged and wired, as you see. It all requires most delicate manipulation by an expert. Tramond of Paris is the leading artist in skulls and bones. The business of modeling these papier mache organs and of articulating bones is not an overcrowded one, as there is not a large demand for such things. Schools and colleges are the chief buyers of the articles. There are precious few students, as you may imagine, who can afford to invest so much money in models for private study."

Any hearts and lungs and livers that come to this country other than by way of the barge office, it may be added, must pay 40 per cent duty to Uncle Sam.—New York Commercial Advertiser.

### A Remedy For Sciatica.

Here is a really old fashioned remedy. It is a grandmother's remedy, and the grandmother who believes in it is alive and recommends it personally. It is for sciatica.

Take equal parts of flour and red pepper and mix with vinegar. Make a paste of it and move it from place to place with the pain. "And if that does not help you then I am mistaken," concludes the grandmother. — New York Times.

### The Foundation of Woman.

A small boy in the mission Sunday school of Bishop Fallows' church propounded an entirely new theory of creation last Sunday.

"Who made man?" asked the teacher, beginning as in the good old days when orthodoxy used catechisms.

"God," was the prompt reply.

"And how did he make him?"

"Out of dust, ma'am; nothing but dust."

"And who made woman?"

"God made her, too, ma'am."

"How?"

The small boy hesitated and then replied cheerfully, "He caused a deep sleep to fall upon man and then took out his backbone and made the woman."—Chicago Inter Ocean.

### A New Arabic Notation.

There is a city magistrate living up town who is possibly raising a mathematical prodigy in the person of his 3 or 4 year old daughter. She has only recently begun to attend the kindergarten and yet meditates changes in the system of enumeration now in vogue which, while startling, are certainly suggestive.

When asked the other day to count, she hesitated some and then lisped:

"None, some, one, two, free, fore."—New York Times.

### Too Much Sugar.

Dr. Patchen of New York says, "If every living person were to diminish by 90 per cent the amount of sugar he now consumes and maintain its use at this standard, in less than one generation the number of physicians now practicing would be diminished by one-half, and two-thirds of the present number of drug stores would be closed."

### Will Power.

"As a lawyer Quibb's success is due largely to his great power of will."

"Yes, I understand he has broken more wills than any other man at the bar."—Philadelphia North American.

### Tragedies of the Grand Canyon.

Tragic stories are told of men who have lost their lives in the search for precious metals which may lie hidden or uncovered, says Harriet Monroe in The Atlantic. The great primeval flood cut its broad V through all the strata of rock, with all their veins of metallic ore, down to the earliest shapeless mass, leaving in its wake the terraced temples and towers which seem to have been planned by some architect of divinest genius to guard their inaccessible treasures till the end of time. And the river, rising far to the north among mountains rich in mineral, has been washing for ages the sands away and depositing thus gold and silver and lead in the still crevices of the inaccessible chasm.

Here the earth laughs at her human master and bids him find her wealth if he dare and bear it away if he can. A young Californian who accepted the challenge and set forth upon the turgid water to sift its sands for gold never emerged with his hapless men to tell the story of his search. Only near the brink of the cleft are a few miners burrowing for copper and sending their ore up to the rim on the backs of hardy burros, as who should prick the mountain with a pin or measure the ocean with a cup.

TUESDAY MORNING, JULY 10, 1900.

## PLANS FOR DEMOCRATIC NATIONAL CAMPAIGN.

**Committee of Democrats, Populists and Silver Republicans to Work for Fusion State and Congressional Tickets.**

By Telegraph to the Morning Star.

LINCOLN, NEB., July 9.—Plans for the Democratic national campaign of 1900 were outlined and practically agreed upon to-day at a protracted conference between the leaders of the party. The plan includes the appointment of a campaign committee, as agreed upon between representativse of the Democratic, Silver Republican and Populist parties at Kansas City.

This committee will include members of all their parties and perhaps also Democrats not members of the national committee, but who are prominent in the councils of the party. This committee will, it is said, have charge in a measure of the practical working of the campaign and will work for fusion on State and congressional tickets whenever possible. The press and executive committee, it is expected, will with one or two exceptions be the same as last year. The personel of all the committees was left in the hands of Chairman Jones. The question of National headquarters was also left in his hands. It was stated that Chicago would probably be selected. Mr. Bryan said to-day that he made no plans as to the part he would take in the campaign and would not do so until he had conferred further with the party leaders. The subject was discussed at the meeting, as well as the amount of campaign work to be done by Mr. Stevenson, and, although this feature will not be fully decided upon until after formal notification of their nomination has been given Bryan and Stevenson, which probably will not be for several weeks, Committeeman Johnson, of Kansas, stated after the meeting that an understanding exists that Mr. Bryan will not tour the country as he did during the campaign of 1896, but will make trips from time to time to the larger centres of population, remaining in Lincoln a great deal of the time. Many visitors are expected during the campaign, and Lincoln will, in a way, be a central point in the campaign.

**Mr. Towne's Decision.**

Mr. Towne may not announce his decision in regard to the vice presidency for several days, although several Populist leaders in the city stated to day that he might announce his withdrawal to the Populist executive committee to-morrow. Democratic leaders, however, state that the whole question has been postponed until after the middle-of-the-road State Populist convention, to be held at Grand Island, Neb., July 20. The attitude taken by that wing of the Populist party and the strength developed by them, will it is said, be closely observed as a criterion in other Populist States, and should no serious defection from the regular Populists on account of Mr. Towne's defeat in the Democratic convention be noticed, a conference with the Populist leaders will then be held, at which time it is ex pected Mr. Towne's withdrawal will be announced. Senator Jones and committeemen Stone, Campau and Johnson left for Chicago to-night.

**Stevenson at the Conference.**

Adlai E. Stevenson, Democratic nominee for the Vice-Presidency, arrived in Lincoln to day to attend the conference of the Democratic leaders. Mr. Bryan and Senator Jones warmly greeted Mr. Stevenson before he left the train. Alighting from the car, Mr. Stevenson shook hands with other members of the Bryan party, including Charles A. Towne, National Committeemen Campau of Michigan, Johnson of Kansas, Stone of Missouri, Daniels of North Carolina, Sergeant-at-arms John Martin and Governor Pointer. Arm in arm with Mr. Bryan he walked down the long station platform between two lines of cheering spectators to the carriages. The party was driven immediately to the Lincoln hotel. Here two or three thousand people had gathered. As soon as Messrs. Bryan and Stevenson alighted there were demands for a speech.

Mr. Stevenson replied: "I can only say to you, fellow citizens, that I thank you for this cordial welcome. I am too modest a man to make the first speech when I stand in the presence of the next President. At some future time I will do myself the honor to address the Bryan men, which means the Democrats, Populists and Free Silver Republicans, all the elements in opposition to the Republican party. I thank you for this honor."

## THE LAURINBURG INCIDENT.

**Seawell Continued His Visit to Maxton. Bellamy's Message to Butler.**

*[Special Star Correspondence.]*

MAXTON, July 7.—Mr. Seawell, Populist candidate for Attorney General, spent to-day in Maxton, the guest of U. S. Commissioner B. F. McLean. He had an appointment to speak at Laurinburg, but getting into an altercation with some one at the depot did not remain, leaving on the same train upon which he arrived. Mr. Seawell seems to be unfortunate in his canvass this year. Whether it is his manner of expressing his feelings, or just his unlucky year, is not generally known.

Mr. Lloyd, Senator Butler's private secretary, and who is also drawing $1,400 per annum as a Senate employe, came in on the A. C. L. train this evening on his way to Lumberton to see about the confusion fences. He arrived just in time to carry a message to his Boss from Hon. Jno. D. Bellamy, who was passing through Maxton on his way to Buncombe to begin his canvass in the West.

It seems that Butler has referred to Mr. Bellamy as an "assassin." The message with which Mr. Lloyd was intrusted was to the effect that Butler was something that didn't sound to your correspondent like "angel."

**Cabinet Council Held to Consider the Pressing Need of Reinforcements.**

## FOR AMERICAN CONTINGENT.

**Probability That at Least Two Additional Regiments Will Be Sent to China from the Philippines--A Ray of Hope in the Situation.**

By Telegraph to the Morning Star.

WASHINGTON, July 9.—Developments in the Chinese situation were considered by members of the cabinet at a consultation held to day. The participants explained their conference by saying that it was the first opportunity that had occurred lately to gather as many as four of the cabinet members for consultation. Results followed in the shape of renewed activity in the dispatch of reinforcements to China. Admiral Kempff's cablegram giving his estimate of the amount of force he regarded as necessary to represent the United States properly in the movement upon Pekin was carefully considered. An agreement was reached to say nothing about the admiral's figures, on the ground that it would be impolitic to make our needs known to the Chinese in the first instance, and also because of a desire on the part of this government to avoid being put in the position of appearing to set up a standard for the other powers in this matter. It is understood, however, that the pith of Admiral Kempff's communication is the

**Necessity for Speedy Reinforcements**

if quick action is desired, and on the latter point there is not a dissentient voice among the cabinet officers. If reinforcements are to be gotten to China speedily they cannot come from the United States. According to the schedule already in execution only one steamer, with two battalions of one regiment, has started from San Francisco, and the next steamer is not to start before the 15th of the present month. This is about the best time that can be made with the present facilities, and at that rate many weeks and even months must elapse before the 5,000 additional troops ordered east Saturday can be landed there. This state of affairs caused a revival to day of the report that General McArthur is to be again called upon to relieve the situation in dispatching from the Philippines at least two regiments in addition to the Ninth infantry already sent to Taku. It was said that the cabinet officers considered this subject and decided to give the necessary orders looking to a re-placement of the troops withdrawn from General MacArthur's command from the force going out from the United States. None of the cabinet officers would admit or deny this, so it gained some measure of credence. Unless Japan is to be left to do all of the fighting in the immediate future, General MacArthur must respond to this demand. By drawing upon the Philippine forces at least a month could be saved in landing troops in China.

**The Naval Contingent.**

Secretary Long this afternoon showed how the navy was responding to the call for reinforcements by ordering five hundred marines to be assembled from the several navy yards for to China. It is significant that these are the military forces to be sent directly from the United States to China without instructions to stop at Nagasaki for orders. The marines will make up a force of 750 men, as the department already has given orders for the equipment of 250 marines for similar service. They will be sent out on the first army transport available for the new service.

The Russian and French 'charge and the Chinese minister were among Secretary Hay's callers to-day. Save the Chinese minister, they came as they said, for information; but it is surmised that their object also was to assure Secretary Hay as to the willingness of the governments of Russia and France to allow Japan a free hand in the matter of landing troops in China to quell the Boxer disturbance. There is a suggestion in the air that this perfect understanding, initiated by Secretary Hay, has been brought about through the quiet acceptance of at least one most important condition. What this condition is cannot be learned, though it is expected to relate to territorial acquisition.

**Two Legations Safe.**

WASHINGTON, July 9.—The following telegram was received last night by Minister Wu from Sheng, director general of the imperial telegraphs at Shanghai, dated yesterday:

*Shanghai July 8.*—Two legations in Pekin still preserved. All ministers safe. Rebellious troops and rioters make attacks but suffer many losses. Imperial troops are protecting, but meet with difficulty in doing so. It is feared that food and ammunition are exhausted."

**More Hopeful Feeling.**

WASHINGTON, July 9.—Though fearful of giving false encouragement, the State Department officials here are bound to admit to-day that there is reason for hope now respecting the welfare of legations at Pekin. Minister Wu's cablegram from Sheng, taken in connection with the report of Admiral Brice from Tien Tsin, has done much to encourage this hopeful feeling. Mr. Wu brought his telegram to the State Department this morning in person and pointed out to Secretary Hay what he regarded as some significant and gratifying features of his dispatch. Such, for instance, was Sheng's description of the Chinese who are attacking the legations as "rebellious troops and rioters," and the positive statement that the Chinese government is opposing them.

Mr. Wu says that Prince Ching, who, according to Admiral Bruce, is attacking the Boxers, is not only the head of the Tsung Li Yamen, but also is commandant of one of the Pekin arsenals.

There are several garrisons in Pekin, each composed of a separate nationality, and Ching commands the Manchu force. At last advices this force comprised about 10,000 soldiers. They have been drilled in foreign tactics at the military schools of the north by instructors who had themselves been taught the art of war by German army officers, and would undoubtedly prove very effective. The minister noted that the Boxer movement had degenerated into rioting and looting, all principle having been lost, and so it was reasonable to expect that the strongest and best and most influential of Chinese mandarins would find it necessary to combine to crush them from an instinct of self-preservation, and regardless of their foreign or anti-foreign sentiments.

**Russia and Japan.**

ST. PETERSBURG, July 9.—Authoritative information just obtained confirms the report that Russia has consented and is even desirous that Japan should co-operate in the pacification of China. Russia places no limit in the number of Japanese troops to be employed, and only stipulates that this agreement is not to constitute a mandate whereby Japan will obtain a privileged position. Japan, it is added, must co-operate in the work of pacification on the same conditions as the other powers.

LONDON, July 9.—Admiral Bruce has sent a telegram to the admiralty department, from Taku, under date of July 7, to the effect that there are grounds for hoping that Prince Ching, with his army is at Pekin protecting the legations against Prince Tuan, his army and the Boxers.

## GERMAN SQUADRON SAILED.

**Emperor Williams' Address Prior to the Departure for China.**

By Cable to the Morning Star.

KIEL, July 9.—The German East Asiatic squadron sailed this morning for China. Emperor William and Prince Henry of Prussia witnessed the departure of the warships. Addressing the first naval division, prior to its departure for China to day, Emperor William said: "Yours is the first division of armored ships which I send abroad. Remember you will have to fight a cunning foe, provided with modern weapons, to avenge the German blood which has flowed. Spare the women and children. I shall not rest until China is subdued and all the bloody deeds are avenged. You will fight with the troops of other nationalities. See that you maintain good comradeship with them."

## MORE TROUBLE IN ST. LOUIS.

**Strike of Employes Against the Transit Company Renewed.**

By Telegraph to the Morning Star.

ST. LOUIS, July 9.—The strike against the St. Louis Transit Company by its former employes, which was declared off on July 2, was ordered renewed to day at a meeting of the Street Railway Men's Union at the West End Coliseum. To morrow morning at 5 o'clock was the time fixed for the renewal of the boycott on all the company's lines.

When the strike was settled on July 2nd there was discontent among the men over the terms of settlement, and since that time the dissatisfaction has grown daily. Charges were made that the company had failed to keep the agreement of July 2nd, and a dozen or more instances were cited tending to prove that there had been a breach of faith.

The bond leaders of the Cape are extend ing their boycott of British firms, and Dutch compainies with 200,000 pounds capital, have been formed.

# OUTLOOK IN CHINA IS MORE HOPEFUL.

**Foreigners in Pekin Probably Safe, With Prince Ching on Their Side.**

## OPPOSED BY PRINCE TUAN.

**The Dowager Empress Striving to Make Peace Between the Factions--Fighting Continues at Tien Tsin--The Allied Forces Hard Pressed.**

By Cable to the Morning Star.

LONDON, July 10, 3.35 A. M.—With the foreigners in Pekin probably safe amid civil war, with Prince Ching on their side, with the powers united and their forces constantly increasing, the outlook in China is now rather more hopeful than it has been for a month past. It appears from the cautious statement given out by Taotai Sheng, that the reason that the heavy guns bearing on the legations at Pekin were not used is that Prince Ching, who is served by 10,000 troops, seized all the artillery ammunition. Sheng likewise intimates that Yung Lu, commander-in chief of the northern army, is associated with Prince Ching in opposing Prince Tuan's ferocious designs and dictatorial ambition. Sheng cheers the foreign consuls by these confidential communications, but takes excessive precautions to prevent the Chinese from thinking him friendly to the foreigners.

The feeling of unrest in the southern and central provinces continues. The members of the official class in those provinces strive to remain neutral with a leaning toward the foreigners, until they shall see whether the moderate or extreme factions will win in Pekin. Prince Ching seems to be standing for the dynasty and the old order against Prince Tuan's inordinate ambition.

**The Key to the Situation.**

From a foreign viewpoint the capture of Pekin is the key to the situation, as there is a fear, according to the *Daily Mail's* Shanghai correspondent, that delay now means one hundred recruits for the Boxers for every soldier of the allies in the land.

Two couriers arrived at Tien Tsin on July 1st, from Pekin. One brought a letter from Sir Claude MacDonald, the British minister, to the same effect as that previously received from Sir Robert Hart. The couriers confirm the report of the death of Baron von Ketteler. They say that Prince Ching is doing his utmost to protect the foreigners but that the native feeling against the whites is strong. Two high officials opposed to the Boxers are reported by the couriers to have been assassinated. Sir Claude MacDonald's letter is dated four days earlier than that of Sir Robert Martin.

**The Dowager Empress.**

A dispatch to a news agency here, dated Tien Tsin, July 2, says:

"The Empress Dowager, so far from being dead, is actively striving to prevent the factions fighting. Prince Ching has informed her that he would rather lose his head than be constantly obliged to warn her of the consequences of the prolongation of the present anarchy. Prince Tuan is quite willing that Ching should be decapitated, but the Dowager Empress will not allow this. Prince Tuan has decided that he will take full responsibility. He purposes to re-take Tien Tsin and Taku. Outside of Pekin, except in the Pe-Chili and Shan Tung country, the people are supremely indifferent. However all this may be, the allies at Tien Tsin are having an exceedingly unpleasant time. The last engagement of which news has come through, occurred on July 6th. The Chinese artillery opened at dawn. Their fire was more accurate and their ammunition better, the shells exploding with precision and setting fire to several buildings. H. M. S. Terrible's guns again quieted the Chinese who, again shifting their artillery, re-opened the attack in the afternoon, but a thunderstorm breaking the Chinese suddenly quit. The allies immediately attacked and drove the Chinese from their works, but lost thirty killed or wounded in so doing.

**Leaving Tien Tsin.**

The non-combatants are leaving Tien Tsin and the opinion of a minority favors the military leaving also. Stories of colossal Chinese armies gathering continue to worry not only the rank and file, but the commanders, who admit the uncertainty of reconnoissances and the complete absence of an effective intelligence department. Chinese information is received with extreme distrust.

It is obvious that, though there are thousands of Chinese camped by the guns, nothing can be done at present except to await the arrival of reinforcements. The rainy season has set in and this makes going into the interior most difficult. The country between Pekin and Tien Tsin in other years has been frequently flooded. River transport is almost impossible and the railway is practically non-existent and must be entirely rebuilt.

Military opinion is unanimous that if the legations did not need relief it would be foolish to attempt to advance before September.

**U. S. Troops at Taku.**

LONDON, July 10.—The *Daily Mail's* correspondent at Che Foo announces, under date of July 7th, that the Ninth United States infantry has arrived at Taku.

LONDON, July 9.—The following dispatch from Lord Roberts has been received at the War Office:

"*Pretoria, Sunday, July 8.*—As the enemy for some days had been threatening our line of railway by trying to get round our right flank, I dispatched Hutton July 5th with mounted infantry to reinforce Mahon and with orders to drive the Boers to the east of Broenkerspruit. These orders were effectually carried out during Friday and Saturday by Mahon, who was attacked by some three thousand men with six guns and two Maxims. Our casualties were: Wounded, two officers, including Capt. Nelles of the Canadian mounted rifles, slightly, and twenty-six men."

## TO CURTAIL PRODUCTION.

**Several Cotton Mills in Fall River Have Suspended Operations.**

By Telegraph to the Morning Star.

FALL RIVER, MASS., July 9.—In compliance with an agreement signed by representatives of most of the cotton mills in Fall River to curtail production for four weeks during the Summer, several mills to-day suspended operations. All the mills represented on the manufacturers' selling committee have entered into an agreement to close for four weeks. When the curtailment is in full operation nearly twenty thousand employes will be affected. The stoppage of machinery is due to the lack of demand for print cloth.

## DECISION AFFIRMED.

**Case of the Southern Bell Telephone Co. Against City of Richmond.**

By Telegraph to the Morning Star.

RICHMOND, VA., July 9.—Judge Simonton in the U. S. Circuit Court of Appeals, to day, handed down an opinion affirming the judgment of the United States Court in the case of the Southern Bell Telephone and Telegraph Company against the city of Richmond.

The decision upholds Judge Goff's decree dissolving the injunction originally awarded the company and dismissing the bill. The cause having been remanded by the Supreme Court to the Circuit Court, that court held that under the laws of Virginia and the ordinances of the city of Richmond, the Southern Bell Telephone and Telegraph Company has no right to use the streets of this city. For this reason it denied the relief asked, dissolved the injunction heretofore granted and dismissed the bill, and the opinion to-day affirms this decision.

The electoral colleges met in the chief towns and cities all over the republic of Mexico yesterday and cast their votes for President. A great majority of votes were cast for General Diaz, insuring his re election for the term of four years, dating from December next.

**The Young Man Was Asked**

WHY DID YOU pay that other man 75c for that Hat when you had been shown the same Hat here for 49c? The young man's reply was this, and a very true statement, too.
